Timing & Duration	:	**02:00 – 05:00 P.M. (3 Hrs.)**	**Max. Marks : 70**

Instructions:

- Budget your time as per the marks given for each question and write your answer accordingly.

Part-A: Q.1 to Q.6 (5 questions *6 Marks = 30 Marks) Attempt any five.

Q1) How quantitative and qualitative methods aids in program evaluation?

Q2) Differentiate between monitoring and process evaluation

Q3) Highlight the importance of multi-disciplinary team in evaluating a health program.

Q4) Briefly explain how “evaluation questions” play an important role in determining the type or nature of evaluation?

Q5) Why are ‘assumptions’ mentioned in any log-frame matrix?

Q6) Briefly explain the relevance of SMART attributes of indicators in monitoring.

Part-B: Q.7 to Q.11 (4 questions *10 Marks = 40 Marks) Attempt any four.

Q7) Explain your understanding of logic model and its relationship with the theory of change.

Q8) Explain how the health information system can facilitate monitoring and evaluation of existing health programmes.

Q9) You are a monitoring and evaluation consultant to a non-government organization which is implementing the World Bank funded project on malaria control in a district where malaria prevalence is high. Your advice is being sought on which approach the supervision should follow as part of monitoring components of the project. What advice would you give and why?

Q10) Discuss the possible benefits and drawbacks of log frame from monitoring and evaluation perspective.

Q11) Explain the role of global monitoring framework in shaping the M&E structures of health programmes by elaborating upon any program in the country.
